HOW IT WORKS

The SLT Affiliate Program gives your customers a discount when they use your promo code to complete an order purchase on the SLT website, and it gives you a commission on their order.

We pay affiliate commissions monthly but only when they reach a minimum of \$100 in commission. You can also use your commission as a store credit to purchase SLT merchandise.

Promo codes are not case sensitive.

LINKING

The link option below will automatically add specific products and your promo code directly to the client's cart on the SLT store.

All that is required is the SKU number of the product you would like them to purchase and your coupon code.

Here is an example for linking the Safe and Sound Pro mmWave with an affiliate code.
Safe and Sound Pro mmWave Meter:

<https://safelivingtechnologies.com/cart.php?action=add&sku=SLT-1440MM-3&couponcode=code>

By adjusting the portion of the web link after the SKU (in this case, "SLT-1440MM-3"), you can use this for specific product links on your own website.

At this time, unfortunately, some products in our e-store with multiple options (e.g., Bed Canopies) do not allow direct links.

An alternative option:

When referring a customer to the SLT Store, just use your affiliate link to hyperlink them to our website.

Here is an example of your Affiliate Referral Link (**use your affiliate number from the Affiliatly portal**):

<https://safelivingtechnologies.com?aff=115>

You can also place this referral link in an email to your customers. Our store will track the customers purchases and place the commission in your account.

You can track your sales on the SLT Affiliatly portal. Below is the login page:

<https://www.affiliatly.com/af-1045267/affiliate.panel>
