ROB METZINGER RECOMMENDED EMR DETECTION KITS

RM6 Basic Home Search EMF Meter Package

The RM6 Basic Home Search EMF Meter Package contains the Safe and Sound Classic III, Alpha Lab TF2 EMF Meter, Retekess AM FM Shortwave Radio and Pro Meter Case. Designed for basic monitoring of your personal EMF and RF exposure.

RM10 Intermediate EMF Meter Package

The RM10 Intermediate EMF Meter Package contains the Safe and Sound Classic III, Gigahertz Solutions ME3830B, Alpha Lab Line EMI Meter, Retekess AM FM Shortwave Radio and Pro Meter Case. Designed for basic monitoring of your personal EMF and RF exposure.

RM15 Pro Electrosmog Meter Package

The RM15 Advanced EMF Meter Package contains the Safe and Sound Pro II, Safe and Sound EM3, Retekess AM FM Shortwave Radio and Pro Meter Case. Designed for more advanced monitoring of your personal EMF and RF exposure.

RM16 Electrosmog EMF Meter Package

The RM16 Intermediate EMF Meter Package contains the Safe and Sound Pro II, Gigahertz Solutions ME3851A, Line EMI Meter, Retekess AM FM Shortwave Radio and Pro Meter Case. Designed for more advanced monitoring of your personal EMF exposure and RF exposure.

Copyright 2025© All Rights Reserved

ROB METZINGER RECOMMENDED EMR DETECTION KITS

RM20 Advanced EMF Meter Package

The RM20 Advanced EMF Meter Package contains the Safe and Sound Pro II, Gigahertz Solutions ME3830B, Alpha Lab UHS2 3-Axis Gauss Meter, Alpha Lab Line EMI Meter, Retekess AM FM Shortwave Radio and Pro Meter Case. Designed for more advanced monitoring of your personal EMF and RF exposure.

RM26 EMF RF Electrosmog Meter Package

The RM26 EMF RF Electrosmog Meter Package contains the Safe and Sound Pro II, Safe and Sound EM3, Alpha Lab Line EMI Meter, Retekess AM FM Shortwave Radio and Pro Meter Case. Designed for more advanced monitoring of your personal EMF and RF exposure.

RM30 Pro EMF Meter Package

The RM30 Pro EMF Meter Package contains the Safe and Sound Pro II, Gigahertz Solutions ME3851A, Alpha Lab UHS2 3-Axis Gauss Meter, Alpha Lab Line EMI Meter, Retekess AM FM Shortwave Radio and Pro Meter Case. Designed for more advanced monitoring of your personal EMF and RF exposure.

RM36 EMF RF Pro Meter Package

The RM36 EMF RF Pro RF Meter Package contains the Safe and Sound Pro II, the Safe and Sound EM3 and Pro Meter Case. Designed for more advanced monitoring of your personal EMF and RF exposure.

Copyright 2025© All Rights Reserved

ROB METZINGER RECOMMENDED EMR DETECTION KITS

RM40 Pro RF Meter Package

The RM40 Pro RF Meter Package contains the Safe and Sound EM3, the Safe and Sound Pro mmWave with the horn antenna, stub antenna and attenuator, Alpha Lab Line EMI Meter, Retekess AM FM Shortwave Radio and Pro Meter Case. Designed for more advanced monitoring of 5G frequencies.

RM46 Pro EMF RF Meter Package

The RM46 Pro EMF RF Meter Package contains the Safe and Sound Pro II, Safe and Sound EM3, Safe and Sound Pro mmWave with the horn antenna, stub antenna and attenuator, Alpha Lab Line EMI Meter, Retekess AM FM Shortwave Radio and Pro Meter Case. Designed for more advanced monitoring of your personal EMF and RF exposure, including 5G frequencies.

RM50 5G Pro RF Meter Package

Safe Living Technologies RM50 5G Pro Meter Package contains the Safe and Sound Pro II, the Safe and Sound Pro mmWave with the horn and stub antenna, Gigahertz Solutions ME3851A, Alpha Labs UHS2 3-Axis Gauss Meter, Alpha Labs Line EMI Meter, Retekess AM FM Shortwave Radio, and Pro Meter Case. Designed for more advanced monitoring of your personal EMF and RF exposure, including the 5G spectrum.

RM60 Advanced - Build Your Own EMF Meter Package

Safe Living Technologies RM60 5G Pro Meter Package contains options for the Safe and Sound Pro II, the Safe and Sound EM3, the Safe and Sound Pro mmWave, Gigahertz Solutions ME3851A, ME3030B, ME3830B, ME3840B Alpha Labs UHS2 3-Axis Gauss Meter, Alpha Labs Line EMI Meter and the Retekess AM FM Shortwave Radio. This kit contains a New Pro Meter Case and any other meters you choose.

EMR DETECTION KITS

MK5 Electrosmog Test Kit

The MK5 Electrosmog Test Kit contains the Safe and Sound Classic III, Gigahertz Solutions ME3030B and Pro Meter Case. Designed for basic monitoring of your personal EMF exposure and RF exposure.

MK13 Electrosmog Test Kit

The MK13 Electrosmog Test Kit contains the Gigahertz Solutions ME3030B, Gigahertz Solutions HF35C and a K5 Meter Case. Designed for general monitoring of your personal EMF exposure and RF exposure.

MK15 Electrosmog Test Kit

The MK15 Electrosmog Test Kit contains the Gigahertz Solutions ME3830B, Safe and Sound Pro II and Pro Meter Case. Designed for intermediate monitoring of your personal EMF exposure and RF exposure.

MK20 Electrosmog Test Kit

The MK20 Electrosmog Test Kit contains the Gigahertz Solutions ME3830B and Gigahertz Solutions HF35C and K5 Meter Case. Designed for intermediate monitoring of your personal EMF exposure and RF exposure.

Copyright 2025© All Rights Reserved

EMR DETECTION KITS

MK30 Electrosmog Test Kit

The MK30 Electrosmog Test Kit contains the Gigahertz Solutions ME3840B, Gigahertz Solutions HF38B, and a K2 Meter Case. Designed for advanced monitoring of your personal EMF exposure and RF exposure.

MK70-3D Electrosmog Test Kit

MK70-3D Electrosmog Test Kit contains the Gigahertz Solutions NFA1000, Gigahertz Solutions HFE59B RF Meter (includes two antennas and other accessories), a K7 Meter Case and more. Designed for use in hospitals, EMR research facilities, EMF testing labs and for all EMF professionals.

MK70-3D Plus 1.0 Electrosmog Test Kit

The Gigahertz Solutions MK70-3D Plus 1.0 Electrosmog Test Kit contains the Gigahertz Solutions NFA1000, the Gigahertz Solutions HFE59B RF Meter Kit, the HFW59D Plus RF Meter Kit, PM5s, PM1 and K7 Meter Case. Designed for professional level EMR detection.

BODY VOLTAGE KIT

Body Voltage Home Test Kit

Our easy to use body voltage test kit measures AC voltage present on the human body from live electrical wiring in your ceilings, walls and floors.

Specialty Meters

SAFE LIVING™
Technologies Inc.
Est. 2006

POWER LINE METERS

AlphaLab Inc. Line EMI Meter

This Power Line Meter measures high frequency electric fields present on your power lines in milliVolts. It captures frequencies between 10 kHz and 10 MHz. These high frequency electric fields are commonly known as dirty electricity.

SHORTWAVE RADIO METERS

Retekess AM FM Shortwave Radio

The Retekess AM FM Shortwave Radio aids in detecting dirty electricity / EMI. This device is often used at the main electrical panel to identify circuit sources.

CURRENT CLAMP METERS

AC Current Clamp Leaker Large

An AC Current Clamp Leaker Meter is designed for measurement of AC leakage current from live wires. This is ideal for measuring current located on your electrical grounding system (most commonly your water pipe) which can result in elevated magnetic fields throughout your home. This device is also sensitive down to 10 microAmps.

AC Current Clamp Leaker Small

This smaller AC Current Clamp Leaker Meter is designed for measurement of AC leakage current from live wires. This is ideal for measuring current located on your electrical grounding system in tighter, hard to reach areas (wiring inside electric panel, smaller water pipes, etc.) which can result in elevated magnetic fields throughout the home. This device is also sensitive down to 1 microAmp.

EMF / GAUSSMETERS

Safe and Sound EM3

The Safe and Sound EM3 is North America's first 3-in-1 pro-level EMF meter. This tool meets Building Biology guidelines for electromagnetic sensitivity. With professional accuracy, the EM3 was optimized to measure low level AC Magnetic Fields +/- 1 dB @ 16 Hz, 50 Hz - 120 kHz (0.01 mG - 25 mG) (1 nT – 2500 nT) and AC Electric Fields +/- 1 dB @ 16.7 Hz, 50 Hz - 400 kHz (0.01 V/m - 10 V/m) with third party calibrated specifications and frequency response.

Gigahertz Solutions NFA1000

This ultimate EMF meter / gaussmeter with datalogging capabilities measures 3D AC electric fields and 3D AC magnetic fields. This meter includes the "NFASoft" data analysis software and will also log radio frequency "RF" output from the Gigahertz Solutions HF59B and the HFW59D. It also offers a frequency range of 5Hz - 1,000,000 Hz.

Gigahertz Solutions NFA30M

This professional gaussmeter with datalogging capabilities measures 3D AC magnetic fields. This meter includes the "NFASoft" data analysis software and will also log radio frequency "RF" output from the Gigahertz Solutions HF59B and the HFW59D. It also offers a frequency range of 16Hz - 32,000 Hz.

Gigahertz Solutions ME3030B

The Gigahertz Solutions ME3030B is a great entry level EMF meter / gaussmeter for basic EMF detection purposes. This meter also measures AC electric fields and AC magnetic fields from 16 Hz to 2,000 Hz.

Copyright 2025© All Rights Reserved

EMF / GAUSSMETERS

Gigahertz Solutions ME3830B

The Gigahertz Solutions ME3830B is our best selling intermediate level EMF meter / gaussmeter. This meter measures AC electric fields and AC magnetic fields from 16 Hz to 100,000 Hz. Its increased frequency range is ideal for detecting dirty electricity.

Gigahertz Solutions ME3840B

The Gigahertz Solutions ME3840B is an advanced EMF meter. This EMF meter / gaussmeter measures AC electric fields and AC magnetic fields from 5 Hz to 100,000 Hz. It also includes frequency filters for source analysis.

Gigahertz Solutions ME3851A

The Gigahertz Solutions ME3851A is an affordable, professional level EMF meter. This EMF meter / gaussmeter measures AC electric fields and AC magnetic fields from 5 Hz - 100,000 Hz. It also includes AC and DC data outputs.

Gigahertz Solutions ME3951A

The Gigahertz Solutions ME3951A is a professional level EMF meter. This EMF meter / gaussmeter measures AC electric fields and AC magnetic fields from 5 Hz - 400,000 Hz. It offers the highest frequency coverage with increased sensitivity, and AC and DC data outputs.

Copyright 2025© All Rights Reserved

EMF / GAUSSMETERS

AlphaLab Inc. UHS2 3-Axis AC Gaussmeter

The AlphaLab Inc. UHS2 is a digital gaussmeter which is used to measure AC magnetic fields across 3 axis simultaneously for accurate total exposure measurements, with optional 1 axis for further analysis. This device measures frequencies between 13 Hz - 75kHz.

RF Meters

SAFE LIVING™
Technologies Inc.
Est. 2006

RF METERS

Safe and Sound Pro II

The Safe and Sound Pro II meter is 5G ready; measuring low & mid bands. This 3rd party certified pro-level RF meter offers +/- 6dB accuracy from 400 MHz - 7.2 GHz, and is effective from 200 MHz to 8 GHz! It also includes a premium OLED display for digital readings from 0.001 µW/m² - 3,180,000 µW/m², max hold, max reset, a USB-C jack for continuous monitoring, volume control, a headphone jack, calibration certificate and more. This meter is also capable of measuring in V/m.

Safe and Sound Pro mmWave

The Safe and Sound Pro mmWave Meter is North America's first-ever, 3rd party certified, consumer level, high band 5G meter. Professionally accurate, the Safe and Sound Pro mmWave Meter measures high-band 5G from 20 GHz - 40 GHz. This meter also includes a digital display in µW/m², audio, peak readings, and much more.

Safe and Sound Classic III

The Safe and Sound Classic III is 3rd party tested and 5G ready. It is ideal for those with no technical experience. Unlike any other meter in its price range, it utilizes the same measurement technology as the Safe and Sound Pro II for a fraction of the cost. It is a simple to use detector for radio frequency / microwave radiation, with exposure levels indicated by colored LEDs. This device offers readings from 200MHz to 8 GHz, which are sensitive below 1 µW/m².

Copyright 2025© All Rights Reserved

RF METERS

Safe and Sound Micro 2.1 RF Detector

The first of its kind! The Safe and Sound Micro RF Detector is a wearable wristband detector. An innovative product of our own design and engineering; this device will notify you with a small vibration when environmental wireless radiation exceeds your desired exposure level. With a push of a button, a color-coded light display will indicate the intensity of your surrounding exposure. This device offers readings from 700MHz to 9GHz.

Gigahertz Solutions HF35C

The Gigahertz Solutions HF35C is one of our most popular RF meters. This device measures radio frequency / microwave radiation from 800 MHz - 2.5 GHz. It also offers audio signal analysis, peak and average settings, and more. This device is 10 times more sensitive than the HF32D.

Gigahertz Solutions HF38B

The Gigahertz Solutions HF38B is an intermediate RF meter. It offers a measuring range of 700 MHz - 3.3 GHz, audio signal analysis, peak hold settings, peak settings and average settings. It is also 10 times more sensitive than the HF35C, and can measure higher power signals.

Gigahertz Solutions HFE35C Meter Kit

The Gigahertz Solutions HFE35C is a versatile intermediate RF meter. This device measures radio frequency /microwave radiation from 27 MHz - 3.3 GHz. It also includes two antennas - a standard directional antenna plus an omni-directional antenna which measures 360 degrees.

Copyright 2025© All Rights Reserved

RF METERS

Gigahertz Solutions HFW35C

The Gigahertz Solutions HFW35C is a specialized Wi-Fi meter for measuring higher frequency sources of radio frequency / microwave radiation ranging from 2.4 GHz - 6.0 GHz.

Gigahertz Solutions HFEW35C Meter Kit

The HFEW35C RF meter kit contains the Gigahertz Solutions HFE35C and the HFW35C. This kit is designed for a detecting a large scale of RF signals ranging from 27MHz - 6GHz.

Gigahertz Solutions HFE59B Meter Kit

The Gigahertz Solutions HFE59B is our best professional level RF meter. This device measures from 27 MHz - 3.3 GHz. It also includes two antennas - a standard directional antenna plus an omni-directional antenna which measures 360 degrees, peak hold feature, data output ports and more attachments.

Gigahertz Solutions HFW59D Plus RF Meter Kit

The Gigahertz Solutions HFW59D Meter Kit is a professional level RF meter. It offers a measuring range of 2.4GHz - 10GHz with audio signal analysis. This kit includes a standard log-per and an omni-directional antenna which measures 360º, as well as the HV20_2400G10 Pre-amplifier.

RF / EMF Detectors

SAFE LIVING™
Technologies Inc.
Est. 2006

RF / EMF DETECTORS

TriField EMF Meter Model TF2

The TriField EMF Meter Model TF2 is a very basic AC gaussmeter, AC electric field meter, and radio power density meter in a single unit. It combines all the features needed for fast measurements of electromagnetic fields (EMF). It also offers a special frequency weighted mode.

Cornet ED98QPro5G Quad Mode Meter

The Cornet ED98QPro5G Quad Mode Meter offers a frequency range from 100 MHz - 8 GHz. It also measures low frequency magnetic fields ranging from 50Hz - 10kHz, low frequency electric fields ranging from 50 Hz - 50 kHz, with a new Light Flicker Mode.

EMF Meter Accessories

SAFE LIVING™
Technologies Inc.
Est. 2006

EMF METER ACCESSORIES

Protective Cover NFACover1

Protect your equipment investments with a flexible soft cover. Compatible with all NFA Series EMF meters (yellow in colour).

PM1 NFA EMF Meter Holder

Fiberglass holder used for potential free or ungrounded AC electric field measurements. Compatible with all Gigahertz Solutions NFA Series EMF meters.

PM5 ME Mounting Bracket

Connect a non-conductive pole to this mounting bracket for potential free or ungrounded measurement of AC electric fields. Compatible with the ME3030B, ME3830B, ME3840B, ME3851A, ME3951A EMF meters, and the Safe and Sound EM3.

PM5s NFA Mounting Bracket

Connect a non-conductive pole to this mounting bracket for potential free or ungrounded measurement of AC electric fields. Compatible with the NFA1000 and NFA400 EMF meters.

Copyright 2025© All Rights Reserved

EMF METER ACCESSORIES

MS3-NFA Magnetostatic 3D-Sensor

For use with the NFA1000 and NFA400, the magnetostatic sensor MS3-NFA allows for measurements of static DC magnetic fields up to a reading of +/- 99.99 µT4 or the respective value in G (Gauss, selectable with NFAsoft). It allows for the assessment of anomalies of the Earth's magnetic field as well as man-made static DC magnetic fields.

ES-NFA Electrostatic Sensor

This device is made for the Gigahertz Solutions NFA meters, for measurement of the electrostatic charging of surfaces. A useful aid when choosing material conducive to the indoor environment, such as carpets, curtains, or others. For measurement and control of electrostatic charging. The charging voltage of up to +/- 10,000 Volt is displayed with a resolution of 1 V plus its polarity.

Safe and Sound Pro Meter Stand

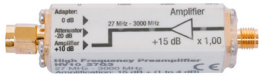
Pro Stand for the Safe and Sound Pro II and Safe and Sound EM3. Acrylic holder used for potential free or ungrounded AC electric field measurements.

Copyright 2025© All Rights Reserved

RF Meter Accessories

SAFE LIVING™
Technologies Inc.
Est. 2006

RF METER ACCESSORIES



Preamplifier HV10_27G3

Amplifies weaker signals by 10x and aids with source identification. Compatible with: Standard Log-Per Antenna or the UBB27 antenna of the HFE35C, HF59B, HFE59B RF meters.

Preamplifier HV20_2400 G10

Amplifies weaker signals by a factor 100x for a more detailed analysis and of low intensity radio frequency sources. Compatible with: Standard Log-Per Antenna, HFW35C and HFW59D.

High Pass Filter With DC PASS HP33_G10

Eliminates the lower frequency range of the Gigahertz Solutions HFW59D so that there is no overlap in frequency response when paired with the HFE59B. This high pass filter is typically used when logging with both the HFE59B and HFW59D to eliminate the overlapping frequency range of 2.4GHz - 3.3GHz.

High Pass Filter HP700_G3

This High Pass Filter will remove signals below 700 MHz from the measurement spectrum and aid with source identification. Compatible with: Standard Log-Per Antenna and the UBB27 antenna of the HFE35C.

Copyright 2025© All Rights Reserved

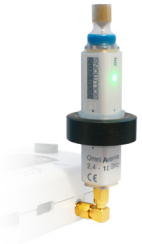
RF METER ACCESSORIES

High Pass Filter HP33

Eliminates the lower frequency range of the Gigahertz Solutions HFW59D so that there is no overlap in frequency response when paired with the HFE59B. This high pass filter is typically used when logging with both the HFE59B and HFW59D to eliminate the overlapping frequency range of 2.4GHz - 3.3GHz.

High Pass Filter BP56

The BP56 High Pass Filter is a Band Pass filter adapter for the antenna entry, 5 GHz - 6 GHz. Allows for the isolated measurement of the upper Wi-Fi / wireless LAN band range. This device is compatible with the Gigahertz Solutions HFW35C and HFW59D.



UBB2410 Omni-Directional Antenna

Explore RF measurements in 360 degrees from 2.4 GHz to 10 GHz. Compatible with RF analyzers: HFW35C, HFW59D, HFEW59D.

UBB27 Omni-Directional Antenna

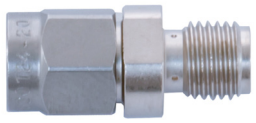
Explore RF measurements in 360 degrees from 27 MHz to 3.3 GHz. Compatible with RF analyzers: HFE35C, HF59B, HFE59B.

Copyright 2025© All Rights Reserved

RF METER ACCESSORIES

Protective Cover RFCover1

Protect your RF measuring equipment with a flexible soft cover. Works with all Gigahertz Solutions RF detectors: HF32D, HF35C, HFE35C, HF38B, HFW35C, HF59B, HFE59B and HFW59B (black in colour).



Attenuator DG20

Increase the maximum power range of your RF analyzer by 20 dB or 100x. Designed for the Gigahertz Solutions HF32D HF35C and the HF38B.

2in1 Log-Adapter ADA-Y

Used for parallel connection of the Gigahertz Solutions HFE59B and HFW59D to the NFA, thus allowing a summary recording of the complete frequency range from 27 MHz through to 10 GHz.

Attenuator DG20_G10

Increase the maximum power range of your RF analyzer by 20 dB or 100x. Designed for standard log-per antenna and omni-directional antenna of the: Gigahertz Solutions HFE35C, HFE59B and HFW59D.

Copyright 2025© All Rights Reserved

MMWAVE METER ACCESSORIES

Safe and Sound Pro mmWave Horn Antenna

The optional “Horn” Antenna is a directional antenna with a directional reception pattern (35 degrees front) and a frequency response of +/- 6dB from 25-40 GHz. Minimum measurable signal is 0.5 µW/m², with a maximum measurable signal of 30,000 µW/m² or (3,000,000 µW/m² with attenuator). Compatible with the Safe and Sound mmWave.

Safe and Sound Pro mmWave Stub Antenna

The standard “Stub” Antenna is a semi-omni directional antenna with a quasi omni-directional reception pattern (50 degrees front and 50 degrees back) and a frequency response of +/- 5dB from 20-40 GHz (effective down to 18 GHz with reduced tolerance). Minimum measurable signal of 5 µW/m², with a maximum measurable signal of 500,000 µW/m² or (50,000,000 µW/m² with attenuator). Compatible with the Safe and Sound mmWave.

Safe and Sound Pro mmWave 20 dB Fixed Attenuator

This 20dB Fixed Attenuator allows the meter to display higher power density signals by a factor of 100. This ranges up to 50,000,000 µW/m² with Stub Antenna + Fixed Attenuator, with a range of up to 3,000,000 µW/m² with Directional Horn Antenna + Fixed Attenuator. Compatible with the Safe and Sound mmWave.

EMF / RF
Meter Cases

SAFE LIVING™
Technologies Inc.
Est. 2006

EMF / RF METER CASES

Hard Shell Zipper Travel Case HS1

This Hard Shell Zipper Case is compatible with: Gigahertz Solutions ME3030B, ME3830B, ME3840B, ME3851A, ME3951A meter, Line EMI meter, and Cornet meters.

Safe and Sound Classic III Zipper Case

This Hard Shell Zipper Case is compatible with the Safe and Sound Classic III.

Safe and Sound Pro II Zipper Case

This Hard Shell Zipper Case is compatible with the Safe and Sound Pro II, Safe and Sound Pro mmWave and Safe and Sound EM3.

Safe and Sound EM3 Zipper Case

This Hard Shell Zipper Case is compatible with the Safe and Sound EM3 and accessories.

Copyright 2025© All Rights Reserved

EMF / RF METER CASES

Safe and Sound Micro Zipper Case

This Hard Shell Zipper Case is compatible with the Safe and Sound Micro meters.

Safe and Sound Pro mmWave Zipper Case

This Hard Shell Zipper Case is compatible with the Safe and Sound Pro mmWave and accessories.

EMF/RF Meter Case CC2

Ensure your EMF and RF meters and equipment are protected during transport. Add a hard plastic carrying case, compatible with 2-3 EMF or RF meters: L x W x H (12.8” x 9.3” x 3”) (326 × 236 × 76MM).

EMF / RF Meter Case CC3

Ensure your EMF meters, RF meters and equipment is protected during transportation - add a rigid hard plastic carrying case. Compatible with large kits: L x W x H (14.5” x 18.5” x 5.5”) (37 × 47 × 14cm).

Copyright 2025© All Rights Reserved

EMF / RF METER CASES

EMF / RF Meter Case K2

This hard cover plastic case is larger than the K5 Carrying Case. It will hold up to 3 Gigahertz Solutions RF or EMF meters, and protect them during transport: L x W x H (13” x 10.6” x 7”) (33 cm x 27 cm x 18 cm).

EMF / RF Meter Case K5

This hard cover plastic case will hold up to 2 Gigahertz Solutions meters and will help to protect your meters during transport. It can be used for any of the Gigahertz Solutions EMF meters as well as the HF35C, HFE35C, HFW35C, and HFW59D RF meters: L x W x H (13” x 10.6” x 3.2”) (33 cm x 27 cm x 8 cm).

EMF / RF Meter Case K7

This hard cover plastic case is the largest case available and has 6 slots for various meters and accessories. This case is included with the MK70-3D professional test kit but it works with any combination of Gigahertz Solutions meters: L x W x H (19.7” x 16.2” x 6.3”) (50 cm x 41 cm x 16 cm).

Power Devices

SAFE LIVING™
Technologies Inc.
Est. 2006

EMF SHIELDED POWER CORDS

EMF Shielded Power Cords

Our wall to personal computer (PC) power cords offer shielding of unwanted AC electric fields from electronic devices and appliances. These power cords are black, made for North America, and are 120 VAC / 10 Amp / 18 AWG. They are also encased in a grounded foil wrap for electric field shielding and have a molded PC end and wall plug. Available in 6ft and 12ft. This product is UL Certified.

EMF Shielded Grounded Power Strip

Our grounded, shielded AC power strip is 120 Volts and has 6 shielded outlets. It is available with a 5 ft shielded cord. Made in North America, this heavy-duty, metal body construction power strip shields the body and outlets of the power strip. This product is UL Certified.

New EMF Shielded Grounded Power Strip With 5ft Cord

Our grounded, shielded AC power strip is 120 Volts and has 6 shielded outlets. It is available with a 5 ft shielded cord. This heavy-duty, metal body construction power strip shields the body and outlets of the power strip. This product is UL Certified.

POWER SHUTOFF DEVICES

Customizable RCS4 Remote Cut Off Switch

Turns on and off specific circuits with the push of a button. Protection against AC electric fields including dirty electricity as well as many other practical applications. Includes RCS4 cut off switch, 24 amp contactor (up to 4 curcuits), 2 remote transmitters, antenna, I/O cable, power supply, mounting rail, installation guide and circuit breaker stickers.

Copyright 2025© All Rights Reserved

POWER SHUTOFF DEVICES

RCS4 Spare Transmitter

Additional transmitter for the RCS4 Remote Cut Off Switch. The transmitter will need to be paired with your Remote Cutoff Switch. Instructions can be found in the RCS4 manual or on our website.

Antenna 15 Meter Cable

Antenna including a 15 meter / 49 ft. cable to decrease the distance between the antenna and the Remote Cut Off Switch Transmitter. Compatible with the RCS4 Remote Cut Off Switch.

4 Circuit Contactor 12VDC, 24Amp

The 24 Amp, 12VDC, 4 Circuit Contactor allows our RCS4 Remote Cut Off Switch to control up to 4 branch circuits. One is included with the RCS4, however, additional contactors can be added to control additional circuits with the same Remote Cut Off Switch.

4 Circuit Contactor 12VDC, 40Amp

The 40 Amp, 12VDC, 4 Circuit Contactor allows our RCS4 Remote Cut Off Switch to control up to 4 branch circuits. Additional contactors can be added to control additional circuits with the same Remote Cut Off Switch.

Copyright 2025© All Rights Reserved

POWER SHUTOFF DEVICES

Contactor Mounting Rail

Contactor Mounting Rail for installation of the Contactors - 6 inches.

WI-FI SHUTOFF DEVICES

Safe and Sound POE Internet Timer Switch

For the timed control of power and Internet to a wireless access point, or other devices, utilizing POE with Internet access. A great option when you want to manage or limit the amount of time an access point is transmitting, and works well in areas like, a classroom, dormitory, or a home.

Radon
Test Detectors

SAFE LIVING™
Technologies Inc.
Est. 2006

RADON TEST DETECTORS

Radon Test Kit

This radon monitor filters out dust and radon progeny through a structural filter that is an integral part of the housing, resulting in increased sturdiness. The housing is injection molded from electrically conducting plastic in order to minimize electrical charge effects from the positively charged radon progeny generated inside the detector. The hemispherical base is designed to maximize sensitivity and create a more uniform track distribution for better counting statistics. Made for use in Canada.

RF / EMF
Shielding Paint

SAFE LIVING™
Technologies Inc.
Est. 2006

RF / EMF SHIELDING PAINT

Safe and Sound RF-ECO Paint

Our Safe and Sound RF-ECO Paint is non-toxic, using a purely acrylic binder. This product is considered a zero VOC paint, it is electrically conductive and black in colour. It is also infused with natural graphite and carbon black. This paint will shield greater than 99.9% of wireless radiation, along with AC electric fields when grounded. It is always recommended to ground this product for best results. Available in 3.8 liters (1 US gallon), 1 liter (1 quart) bins or 0.24 liter (8 oz) samples.

YShield HSF54 Paint

Our Yshield HSF54 Shielding Paint is carbon based and corrosion resistant. This paint will shield greater than 99.987% of wireless radiation. It is available in 1 liter (1 quart), 5 liter (1.32 US gallon) bins or 0.24 liter (8 oz) samples. It is always recommended to ground this product for best results.

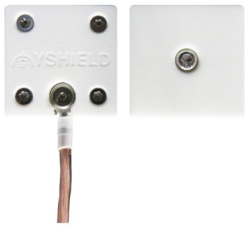
GROUNDING ACCESSORIES

YShield AF3 Carbon Fiber Additive

The YShield AF3 is a special carbon fiber additive for mixing with our EMF Shielding Paints to ensure continuous conductivity throughout the entire painted surface. This product can be used as an alternative to the GSX grounding tape for grounding purposes (typically for exterior projects or porous surfaces).

GSX Conductive Tape

The GSX is a self-adhesive, conductive fleece grounding tape for under shielding paints, to bridge cracks and to join adjacent surfaces. The glue on GSX is electrically conductive and therefore it can be applied under or on top of your EMF Shielding Paint. Ideally it is applied underneath the layer of the EMF Shielding Paint.



YShield GCS Grounding Kit

The GCS Grounding Kit is ideal for grounding all electrically conductive fabrics, foils, meshes. Designed for interior use. The two connecting plates must be screwed together - the material that is supposed to be grounded needs to be punctured. An optional grounding cable, ground peg and outlet tester are available with the purchase of this kit.

YShield Interior Grounding Kit GS2

The GS2 is our standard interior grounding plate kit for shielding paints, mesh, foil, etc. Designed for interior use. One grounding kit is required for each continuous connected surface or one per room. An optional grounding cable, ground peg and outlet tester are available with the purchase of this kit.

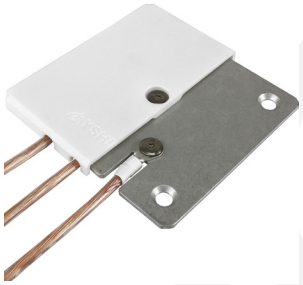
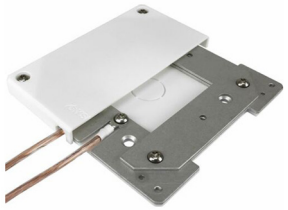
GROUNDING ACCESSORIES



YShield Interior Grounding Kit GS3

The GS3 is our standard interior grounding plate kit for shielding paints, mesh, foil, etc. Designed for interior use. One grounding kit is required for each continuous connected surface or one per room. An optional grounding cable, ground peg and outlet tester are available with the purchase of this kit.



YShield Interior / Exterior Grounding Kit GF4

The GF4 is our standard interior or exterior grounding plate kit (optional grounding cable) for shielding paints, mesh, foil, etc. Designed for interior or exterior use. One grounding kit is required for each continuous connected surface. An optional grounding cable, ground peg and outlet tester are available with the purchase of this kit.

Grounding Cable GL1

The Grounding Cable is designed for interior or exterior use. This grounding cable connects grounding components with each other. With crimped cable lugs and a shrink hose on both sides, this grounding cable is transparent, and highly flexible. 1m in length.

Grounding Cable GL500

The Grounding Cable is designed for interior or exterior use. This grounding cable connects grounding components with each other. With crimped cable lugs and a shrink hose on both sides, this grounding cable is transparent, and highly flexible. 5m in length.

GROUNDING ACCESSORIES

New Grounding Accessory Options

Build your own grounding kit. Customizable grounding kit for shielding paints, shielding fabrics, mesh, foil, etc.

USB Grounding Kit

The USB Grounding Kit is ideal for grounding electronic devices with a USB port, such as laptops, to help reduce low frequency AC electric fields. Designed for North American power outlets.

Grounding Peg

This Grounding Peg is made for Body Voltage Test Kits and temporary grounding of EMF shielding material.

Alligator Clip

Alligator Clips for the Body Voltage Test Kit and grounding of EMF shielding material.

GROUNDING ACCESSORIES

Grounding Plug

Ground plugs for Body Voltage Test Kits and grounding of EMF shielding mesh, foil, shielding fabric and more. Can be used to ground an EMF meter for “Grounded Electric Field Measurements”. Designed for North American power outlets.

Outlet Tester

Outlet Tester for Body Voltage Test Kits and grounding of EMF shielding material. Designed for outlet wiring testing of North American power outlets.

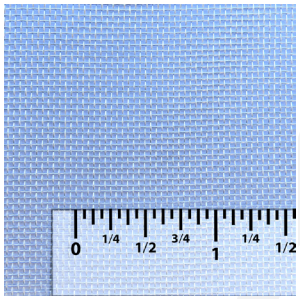
MAGNETIC FIELD SHIELDING

G-Iron ArmoFlex

G-Iron ArmoFlex is designed as an EMF blocker against AC magnetic fields produced by the flow of electrical current. Unlike other types of magnetic field shielding, G-Iron is very flexible and does not lose its shielding properties when bent or molded to various shapes. This product is available in 35 ft. rolls by 2 ft. wide with smaller cuts available and 5 in x 5 in samples.

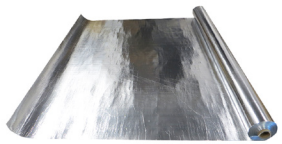
RF / EMF SHIELDING MESH



Signal Protect AM2 Aluminum Mesh

Our breathable Signal Protect AM2 Aluminum Mesh is designed for new construction and renovations. It has excellent RF shielding qualities and is a very versatile product that can be applied under drywall, under shingles on roofs, in the attic or under stucco and plaster. Layers can be added to increase shielding power. It can also be used as an insect screen to shield windows or be laid loosely. This product is available in 25 or 100 ft. rolls by 4 ft. wide with smaller cuts available, and 5 in x 5 in samples.

RF / EMF SHIELDING FOIL

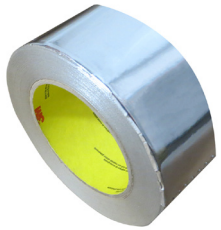


RF Shielding Foil

Our Aluminum RF Shielding Foil is designed to block analogue and pulsed digital signals from exterior sources such as microwave transmitters, cell phone towers, neighbours' cordless telephones, Wi-Fi signals, smart meters and more. This foil offers an effective vapor barrier, and shields against low frequency AC electric fields when grounded. This product is designed for new construction and renovation and is available in 125 ft. rolls by 4 ft. wide with smaller cuts available, and 5 in x 5 in samples.

Copyright 2025© All Rights Reserved

RF / EMF SHIELDING FOIL



Aluminum Foil Tape

This self-adhesive, solid Aluminum Foil Tape is used to secure the joints between overlapping pieces of RF Shielding Foil to ensure there are no shielding gaps. This product is 2 inches wide by 150 ft. long.

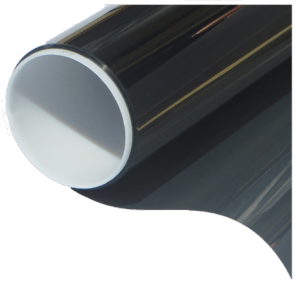
RF SHIELDING WINDOW FILM

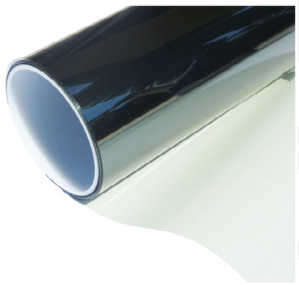
Signal Protect Clear Window Film

Signal Protect Clear Window Film is our most transparent radio frequency / microwave radiation protection solution at 99.99%, which prevents leaks in your faraday cage. It also offers light transmission of 72%. This product is available in three, four, five and six foot wide rolls, and linear feet options. Also available in 8 in x 10 in. samples.



Signal Protect Silver Window Film

Signal Protect Silver Window Film is a reflective radio frequency / microwave radiation protection solution at 99.99%, which prevents leaks in your faraday cage. It also offers light transmission of 22%. This product is available in three, four, five and six foot wide rolls, and linear feet options. Also available in 8 in x 10 in. samples.



Signal Protect Clear Car Window Film

Signal Protect Clear Car Window Film is our most transparent radio frequency / microwave radiation protection solution at 99.99%, which prevents leaks in your faraday cage. It also offers light transmission of 72%. This product is available in three, four, five and six foot wide rolls, and linear feet options. Also available in 8 in x 10 in. samples.

Swiss Shield
EMF / RF
Shielding Fabric

SAFE LIVING™
Technologies Inc.
Est. 2006

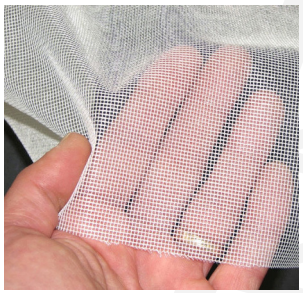
SWISS SHIELD EMF / RF SHIELDING FABRICS

Swiss Shield Naturell

Our Swiss Shield Naturell fabric is our premium, cotton decorative fabric. It offers the most effective radio frequency / microwave shielding at 99.99% or 40 dB at 1 GHz, and it is 99% effective up to 10 GHz. This fabric is available per linear foot, cut from a 98.4 in wide roll. It is also available in 4 in x 4 in samples.

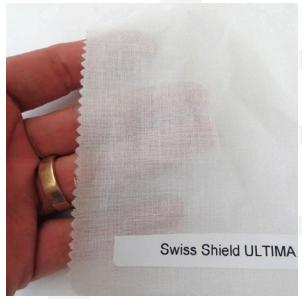
Swiss Shield Naturell Ultra

Our Swiss Shield Naturell Ultra fabric is our premium, cotton decorative fabric with the option to ground. It offers effective radio frequency / microwave shielding at 99.99% or 40 dB 1 GHz and, it is effective up to 99% 10 GHz and is Swiss Shield's only conductive fabric. When grounded, it reduces AC electric fileds. This fabric is available per linear foot, cut from a 98.4 in wide roll. It is also available in 4 in x 4 in samples.



Swiss Shield Daylite

Our Swiss Shield Daylite fabric is our premium, decorative synthetic fabric mesh. It offers effective radio frequency / microwave shielding at 99.6% or 24 dB at 1 GHz and, it is effective up to 97% at 3 GHz. This fabric is available per linear foot, cut from a 102 in wide roll. It is also available in 4 in x 4 in samples.



Swiss Shield Ultima

Our Swiss Shield Ultima has the highest attenuation and is a non conductive cotton shielding fabric. It offers effective radio frequency / microwave shielding at radio frequency / microwave effectiveness of 99.992% or 41 dB at 1 GHz, and it is effective up to over 99.2% or 21 dB effective up to 10 GHz. Swiss Shield Ultima is also slightly more dense than the Naturell. This fabric is available per linear foot, cut from a 98.4 in wide roll. It is also available in 4 in x 4 in samples.

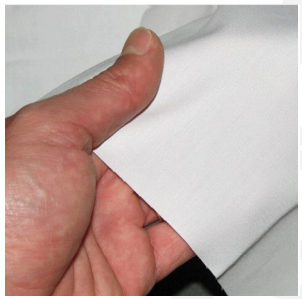
SWISS SHIELD EMF / RF SHIELDING FABRICS

Swiss Shield Ventus

Our Swiss Shield Ventus is our softest, most attractive cotton EMF fabric, designed for decorative use. It offers effective radio frequency / microwave shielding of 99% up to 10 GHz. This fabric is available per linear foot, cut from a 96.4 in wide roll. It is also available in 4 in x 4 in samples.

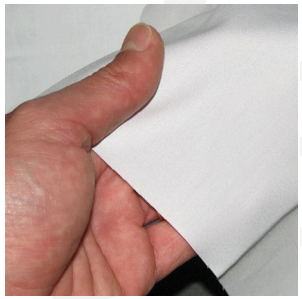
Swiss Shield Naturell Arbor

The Swiss Shield Naturell Arbor was specially developed to meet the fire protection requirements in various buildings. It is our softest, most attractive cotton EMF fabric, designed for decorative use. It offers effective high frequency electromagnetic field (HF) shielding of 600 MHz to 40 GHz. This fabric is available per linear foot, cut from a 98.4 in wide roll. It is also available in 4 in x 4 in samples.



Swiss Shield Wear

Our Swiss Shield Wear is a durable natural cotton fabric designed for clothing or bedding. It offers effective radio frequency / microwave shielding at radio frequency / microwave effectiveness of 99.7% or 25 dB at 1,000 MHz. This fabric is available per linear foot, cut from a 59 in wide roll. This fabric is available per linear foot, cut from a 59 in wide roll. It is also available in 4 in x 4 in samples.



Swiss Shield Max Wear

Our Swiss Shield Max Wear is a durable natural cotton fabric designed for clothing or bedding. It offers effective radio frequency / microwave shielding at radio frequency / microwave effectiveness of 99.99% or 41 dB at 1,000 MHz. This fabric is available per linear foot, cut from a 59 in wide roll. It is also available in 4 in x 4 in samples.

EMF / RF SHIELDING BED SETS

Swiss Shield Naturell Bed Set

Our Swiss Shield Naturell Bed Set offers the most effective EMF and RF shielding from underneath your bed as you sleep. This bed set includes a sheet for underneath your mattress and ontop of it. Available in Single, Double, Queen, King and California King sizes.

EMF / RF SHIELDING BED CANOPIES

Naturell Bed Canopy

Our premium hand made canopy with the highest radio frequency shielding characteristics. Our most popular, elegant, decorative, natural US eco-cotton fabric. Available in Single, Double, Queen, King and California King sizes.

Ventus Bed Canopy

Our softest, premium hand made canopy with effective radio frequency shielding characteristics. A very popular, elegant, decorative, cotton fabric. Available in Single, Double, Queen, King and California King sizes.

Naturell Ultra Bed Canopy

Our premium hand made groundable canopy, with the highest radio frequency shielding characteristics. Elegant, decorative, natural US eco-cotton fabric. Available in Single, Double, Queen, King and California King sizes.

EMF / RF SHIELDING BED CANOPIES

Daylite Bed Canopy

Hand made canopy with effective protection against radio frequency and microwave radiation. Our lightest and most breathable synthetic polyester fabric. Available in Single, Double, Queen, King and California King sizes.

Naturell Travel Bed Canopy

Our premium hand made canopy with the highest radio frequency shielding characteristics. Elegant, decorative, natural US eco-cotton fabric. This canopy is portable and perfect for travel. Available in Queen and King sizes.

Daylite Travel Bed Canopy

Our premium breathable, hand made canopy with the highest radio frequency shielding characteristics and synthetic netting. Our lightest and most breathable synthetic polyester fabric. This canopy is portable and perfect for travel. Available in Queen and King sizes.

Custom Bed Canopy

Custom bed canopies can be made to desired requirements if requested. Please visit our website or contact us for more details.
